EPIC Y-Grade Pipeline, LP [W] F.E.R.C. No. <del>2.11.0</del> <u>2.12.1</u> Page 3 of 7

The Uncommitted Transportation Rate shown above is subject to adjustment each year in accordance with the mechanism set forth in FERC regulation 18 C.F.R. § 342.3, or any successor thereto. Interest will be due on payments not made when due, as provided in Rule 17 of the Rules and Regulations Tariff. Participation in the Balancing Policy is a requirement of transportation for all Shippers. Carrier will, on a not unduly discriminatory basis, consider requests for delivery by displacement service on its system where operationally feasible, in which case the tariff rate for service between such points shall apply.

(1) During times when the system is in pro-rationing, the Uncommitted Transportation Rate will be modified to be **[U]** one cent (\$0.01) below the rate paid by a Committed Shipper. This modification will end when the system is no longer in pro-rationing.

EPIC Y-Grade Pipeline, LP [**W**] F.E.R.C. No. <u>2.11.0</u> <u>2.12.1</u> Page 4 of 7

The Volume Commitment Incentive Program Rates shown above are subject to adjustment annually to reflect inflation adjustments promulgated annually by the FERC for oil pipelines under 18 C.F.R. § 342.3 (or any statute or regulation replacing or supplementing said section); *provided however* that in no event shall such rates be required to be reduced to reflect a negative inflation adjustment. The inflation adjustment will be in accordance with the lower of (a) the inflation adjustment promulgated by the FERC or (b) one hundred four percent (104%). If the FERC's indexing methodology is discontinued, the rate shall continue to be escalated annually using the lower of (a) the Producer Price index ("PPI") or (b) one hundred four percent (104%). The first adjustment will occur on the first anniversary of the Commencement Date, as described in the T&D Agreement. Interest will be due on payments not made when due, as provided in Rule 17 of the Rules and Regulations Tariff. Carrier will, on a not unduly discriminatory basis, consider requests for delivery by displacement service on its system where operationally feasible, in which case the tariff rate for service between such points shall apply.
